30

The Okanagan has Canada's lowest per-capita supply of water and yet consumes it at twice the average rate

In 2023 the residents of the Skaha Estates Improvement District used 124,627 cubic meters of water compared to 100,886 cubic meters in 2022.

For information purposes, in December 2023 2,166 cubic meters of water was used compared to 25,210 cubic meters in July 2023, this demonstrates the amount of water used for watering of lawns, gardens etc.
